

PERFORMANCE SHOCKS

Fabtech Performance Shocks have been designed to work in conjunction with each of our suspension systems, resulting in superior ride control. Features include high velocity 9-stage valving for excellent dampening capabilities and a closed cell insert to reduce shock fade at high speeds.

- Twin Tube Hydraulic Construction
- 9/16" Hardened Chrome Piston Rod
- 1 3/8" OD Piston
- Closed Cell Foam insert
- High Flow 9 Stage Valving
- Polyurethane Bushings

SHOCKS

PERFORMANCE STEERING STABILIZER

Using the same construction as our Performance shocks these Performance Steering Stabilizers will reduce front end shimmy from oversized tires and wheels. Easy fit heavy duty bracketry allows for a quick installation. Available in single and dual stabilizer applications.

DUAL STEERING STABILIZER

SINGLE STEERING STABILIZER
